We look forward to helping you solve any issues you may experience. Perceived community climate, racism and access to health services. Most studies of climate-public health relations focus on the individual's perception of climate in terms of weather conditions, physical environments and built environment. Little is known about how community-level perceived climate influences health. This paper reports the results of a study on the effect of community-level perceived climate on access to health services in a mainly Black city in the US. Data were collected from 30 Black adults who self
